

## Senior Engineering Designer

*Calgary, Alberta*

### **Who We Are:**

**Invistec Consulting Ltd.** is seeking a qualified individual to lead a group of junior and intermediate designers out of its Calgary office to prepare detailed engineering designs.

**Invistec Consulting Ltd.** is an employee owned, Western Canada based multi-disciplinary firm providing consulting services in planning, civil engineering, landscape architecture, transportation engineering, and urban design.

Our client base continues to expand and we are looking for a talented individual who are ambitious, self driven, and a team player to further enhance our image to be the premier land development consultant. This position will be rewarded with a competitive compensation package, attractive benefits, and opportunities to participate in ownership.

### **Description of the Opportunities:**

- Lead a group of junior and intermediate engineering designers to prepare land development detailed engineering drawings including: site grading, sanitary design, stormwater design, water design, and roadway design for residential and commercial subdivision projects;
- Assist the Manager of Engineering Design to establish drafting and design procedures;
- Liaison with the municipalities and approval authorities; and
- Mentor junior staff.

### **The Successful Candidate will Possess the Following:**

- Completion of a Civil Engineering Technology or University Degree;
- Proficiency in AutoCAD and Civil 3D is mandatory, knowledge of related SWM software and HNA software is considered an asset;
- Minimum of 8 years experience related to land development, project design, and drafting;
- Strong communication, leadership, problem solving, and interpersonal skills; and
- Familiar with City of Calgary and surrounding engineering standards.

### **How to Apply:**

Invistec is a fun, friendly and supportive team environment. Invistec staff is passionate about our work and participate in continuing education and industry events.
