

Who We Are:

Invistec Consulting Ltd. is seeking an Intermediate Civil Technologist to join our team.

Invistec Consulting Ltd. is an employee owned, Western Canada based multi-disciplinary firm providing consulting services in planning, civil engineering, landscape architecture, transportation engineering, and urban design.

Our client base continues to expand, and we are looking for a talented individual who is ambitious, self driven, and a team player to further enhance our image to be the premier land development consultant. This position will be rewarded with a competitive compensation package, attractive benefits, and potential opportunities to participate in the ownership.

Description of the Opportunities:

- Complete designs including site grading, sanitary design, stormwater design, water design, and roadway design for residential and commercial subdivision projects
- Acting as a lead designer in the preparation of engineering drawings for civil site, roadway, drainage projects utilizing AutoCAD Civil 3D
- Understanding and performing engineering calculations
- Engage with colleagues, stakeholders on various projects
- Participate in quality assurance and quality control on your own projects as well as projects of your peers
- Well versed in preliminary and detailed design of land development infrastructure including earthwork management, stormwater management, sanitary sewer, and water networks, and road grading
- Creating topographic surfaces and calculate quantities
- Creating quantity takeoffs and creating Opinion of Probable Costs (OPC's)
- Ensuring projects are completed in a timely and efficient manner

The Successful Candidates will Possess the Following:

- Minimum of 4 years of progressive experience related to land development is preferred
- Registration in good standing with ASET
- Have the professional designation of P.L. (Eng.) or C.E.T.
- Proficiency in AutoCAD and Civil 3D is mandatory, knowledge of related SWM software and HNA software is considered an asset
- Strong communication, leadership, problem solving, and interpersonal skills
- Familiarity with the engineering standards of the City of Edmonton and surrounding municipalities
- Attention to detail and ability to work as a team player

INVISTEC CONSULTING LTD.

How to Apply:

Invistec is a fun, friendly, and supportive team environment. Invistec staff are passionate about our work and participate in continuing education and industry events.
