

Transportation Manager

Edmonton, Alberta

Who We Are:

Invistec Consulting Ltd. stands for Innovation, Integrity, and Excellence. We are a private, Edmonton-based consulting firm specializing in consulting services in planning, civil engineering, landscape architecture, transportation, and urban design. Invistec is involved in planning, designing, and building innovative and sustainable infrastructure projects for public and private sector clients. With a well-established base in Edmonton, we are actively involved in projects across Canada. Our priority is providing our clients with exceptional service and surpassing their expectations at every opportunity. Invistec provides a fun, friendly, and supportive team environment.

Invistec Consulting Ltd. is seeking a skilled leader for our Edmonton Transportation Group. The successful candidate will have at least eight years of progressively responsible experience. They will bring a portfolio with a range of transportation projects including transportation engineering and rural / urban roadway projects working with public and private sector clients. Through sharing examples from their career, the successful candidate will demonstrate creativity, professionalism, and a commitment to excellence. They will have an entrepreneurial spirit and be constantly driven to achieve results. Invistec's history has been built on teamwork and the Transportation Manager must have a demonstrated ability to function at many levels including as a project manager, technical advisor, team member, supporter, and resource. The successful candidate should have an innate ability to present technical solutions to complex problems and gain support from clients and approving authorities.

Our ideal candidate will include or demonstrate in their cover letter and resume:

- Rural transportation projects they have been involved in including roles
- Urban transportation projects they have been involved in including roles
- Experience in the preparation of Transportation Impact Assessments
- Roadway design and construction project management experience (including roundabout design)
- Sound project management skills and the ability to adapt
- Ability to function effectively in a multi-disciplinary team at various levels
- Competence in balancing efforts and resources across multiple projects to achieve outcomes and meet deadlines
- Strong written and analytical skills including technical report writing, proposal writing, and communicating complex technical issues to a broad audience
- Tenacity in anticipating client needs in delivering ongoing support and service
- Competent verbal communication skills including making formal and informal presentations to a range of audiences
- A full and active life including involvement in extracurricular professional, social, and recreational activities

INVISTEC CONSULTING LTD.

The Successful Candidates will Possess the Following:

- An undergraduate degree in Civil Engineering
- Eligible for membership with APEGA
- A portfolio of diverse transportation planning/engineering experience
- Formal project management training or certification is an asset
- Master's degree or post graduate education in transportation is desirable
- Experience in functional planning and design for urban and highway infrastructure would be an asset

Description of the Opportunity:

- Lead, mentor, support growth and development of our transportation group
- Oversee a range of multi-modal transportation projects and studies including planning, design, and implementation
- Supervise the preparation of proposals in response to competitive and sole source requests including project cost estimates, project plans, scope definition, and communication plans
- Project management including internal and external resources, project scope, schedule, budget, and communication
- Collaborate and coordinate across multiple disciplinary project teams to address complex issues and provide creative and comprehensive outcomes
- Ongoing proactive communication with clients and ensure client expectations are met and exceeded
- Review contributions from other disciplines to ensure alignment with overall project goals
- Support business development through client meetings, professional conferences, and attendance at industry events
- Maintain and build strong relationships including existing clients, prospective clients, public sector officials, contractors, and other professionals
- Enhance Invistec's professional and corporate profile

How to Apply:

Invistec is an Equal Opportunity Employer. We welcome applications from all qualified candidates regardless of age, race, gender, sex, or sexual orientation.

Invistec thanks all applicants for their interest, however only those selected for an interview will be contacted.
